

STRINGO®

THE ORIGINAL VEHICLE MOVER

Stringo 550+

MOVING YOUR HEAVIEST VEHICLES IN THE
MOST CHALLENGING ENVIRONMENTS

The Stringo 550 PLUS is a heavy-duty vehicle mover capable of transporting vehicles weighing up to **5 000 kg** (11 020 lbs). Equipped with a front section specially developed for moving vehicles in the most challenging environments.

THE STRINGO 550 PLUS is a good choice if you are in the automotive industry and need to transport larger cars and smaller trucks on your assembly line or testing lab. It's also a useful tool if your design department needs to move heavy clay models with care.

Next-level features

Stringo 550 PLUS has all the advantages of the regular Stringo, plus next-level features. With an upgraded front-section, this robust model is designed for high-frequency use and long-distance moving. This powerful machine enables you to smoothly ride over obstacles or transitions that come in your way – without losing speed or precision.

Stringo 550 PLUS is our strongest vehicle mover transporting vehicles with an axle weight up to 3 200 kg (7 055 lbs).

Stringo 550 PLUS is available in two designs. As pedestrian or ride-on. The ride-on version also features power steering.

**The above-illustrated Stringo 550 PLUS is equipped with extra options.*

“For over three decades now, we have focused on just one thing
– moving cars as efficiently, easily, and safely as possible.”

Terrain capability

Equipped with bogie wheels, Stringo 550 PLUS can easily ride over bumps and obstacles, like uneven floor surfaces or transitions. The machine carefully transports your vehicle long distances over rough ground. This terrain capability allows you to go faster, a feature that will decrease your loading time.

Outstanding stability

Stringo 550 PLUS has a lower center of gravity, enabling outstanding stability. This gives the operator the confidence to navigate the Stringo even more efficiently.

Gentle and smooth on operator and vehicle

The special bogie wheels offer extra comfort for both operator and vehicle, ensuring gentle movements and safe handling.

Customized to your needs!

For us, customized is standard. That's because we want to make sure you get a vehicle mover that simplifies your daily needs. When customized to your environment and your vehicles, Stringo can work in its full capacity transporting your vehicles as efficiently and safely as possible.

Technical Data **Stringo 550+**
